Rapport Injusticia ambiental: comunidad di Parkietenbos mester por haya su stem

Empleadonan publico mester busca balans entre nan posicion, problemanan y menos placa pa haci nan trabao

Sin investigacion y data no tin transparencia. Y sin e elementonan aki no por yega na un solucion pa dump. Esaki ta locual Laura Mathieu argumenta den su rapport investigative Breathing Unevenly: community response to Environmental Injustice.'

Pa por haya un bista holisitico e investigado a ilustra ken tur ta e 'stakeholders' cu ta directamente involvi cu dump di Parkietenbos. E estudio a enfoca particularmente riba e relacionnan, afiliacion y/of tension cu ta existi entre e actornan, cu ta e comunidad cu ta biba den cercania di e dump, NGO's (por ehempel Stichting Parkietenbos), ehecutivonan publico manera Parlamentarionan, Ministernan, departamentonan manera Direccion di Naturalesa y Medioambiente (DNM) y finalmente companianan priva cu ta Serlimar y Ecotech.

Tur ta reconoce e problemanan di dump, pero e grado con ta diferencia. Tambe e perspectivanan ta diferencia kico e problemanan tabata y con pa solucionan nan. Stichting Parkietenbos por ehempel a keda funda 20 aña pasa pasobra comunidad no tabata tolera e peligernan di dump mas. E fundacion tabata den combersacion continuo cu Gobierno(nan) pa cera e dump, pero no tabatin resultado.

DNM

Riba su website, DNM, un entidad publico ta bisa cu obhetivonan ta 'Prepara, diseña, implementa y evalua maneho

cu ta conduci na un ambiente sostenibel y saludabel pa hende y naturalesa na Aruba.' Locual ta responsabilidad di DNM ta desperdicio, calidad di air y substancia peligroso. Y aunke DNM tin un departamento encarga pa investiga y monitor medio ambiente, e investigacion ta mas bien pa traha maneho, y no pa acumula dato especificamente. Y e investigacion, segun Mathieu, ta conecta directamente na e agenda politico y parcialidad di e partido na poder. Tabatin poco maneho describi riba desperdicio y e dump, y no tin ley, cu ta permiti companianan opera sin regulacion riba maneho di sushedad. Den e rapport, e investigador a bisa cu un ehecutivo di DNM a bisa cu nan ta kere cu e problema di dump no ta uno tecnico, sino uno cultural.

"A bisa cu e problema ta bin di mentalidad di comunidad cu ta consumi hopi," Mathieu a splica.

E entrevistanan a revela desconfianza grandi denter di e comunidad di Parkietenbos, particularmente den direccion di Gobierno. Durante e entrevistanan, varios residente a bisa cu "locual politiconan ta bisa ta mas bien 'wishful thinking'. Nos tin problema pa kere nan." Pero e mesun cinismo a keda expresa contra otro ciudadano den comunidad. Algun ta acusa e estilo di bida di otro pa nan problema di salud, y no e dump.

Espacio politiza

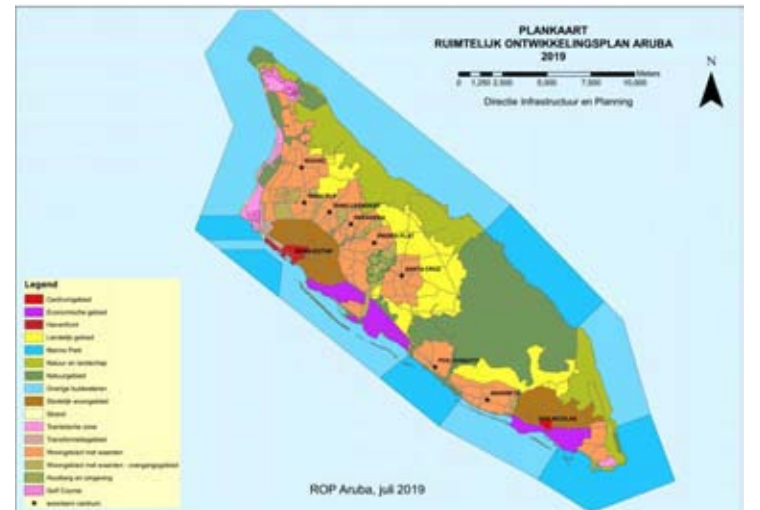

E estudio no ta pa busca ken tin culpa pa dump, pero pa muestra cu e daño ta resul-

tado di decadanan di negligencia. Gobierno berdad ta haya culpa, pero e problema ta structural y no tecnico. Segun Laura Mathieu, e motibo pakico e intentonan pa solucion ta faya ta pa motibo di demasiado politica, falta di placa of no pone dump como prioridad. Politica a bira asina mara na e situacion cu partidonan ta culpa otro. Pero, esaki ta preveni pa yega na solucion pa termino largo, particularmente pasobra no tin continuidad ora cu Gobierno cambia. Tur esaki ta conduci na remediacion di duracion cortico pa problemanan di duracion largo, cu ta haci tur e pasonan cu ta tuma te cu awor inefectivo.

E ta dificil pa defini interes di empleadonan publico cu injusticia ambiental. Nan mester busca balans entre nan posicion y e problemanan cu nan ta topa cune y e presupuestonan cu ta bira menos. Y nan trabao ta na peliger pasobra ta existi e percepcion cu si pusha contra Gobierno, e presion ta bin bek. Un ambtenaar y un miembro di Parlamento cu a participa den e entrevistanan a bisa cu e tensionnan pa anda cu e problema di desperdicio ta produci hopi stress.

Falta di transparencia

E dimension politico ta conecta cu e problema di falta di transparencia. Manera Laura Mathieu a bisa Bon Dia Aruba den su entrevista, esaki a bira cla cu e combersacion cu Central Bureau di Estadistica, CBS. Den su rapport, Mathieu a skirbi cu un trahado di CBS a bisa cu a haci poco investigacion riba dump

ya cu e tema ta demasiado politico. A tuma algun muestra 20 aña pasa, pero e rapportnan no ta disponible pa publico. "Esaki pa motibonan politico. Nos no por a obtene informacion riba nivel di polucion cu ta inaceptabel. Tur ciudadano mester tin acceso na data cu ta relata na riesgo pa nan salud," ta e declaracion cu a duna. Un trahado na dump a bisa cu nan mester a firma un NDA, un 'non-disclosure agreement' (acuerdo de secrecia) pa preveni'e pa comparti informacion riba dump. "E ta muestra comosifuera e asuntonan aki ta demasiado politico ora e ta trata proteccion e interes di esnan na poder of cu tin autoridad. Ora cu a puntra pakico no a haci investigacion riba salud y medioambiente, otro respondiente a bisa cu e reaccion ta e motibonan por ta mira como politico." E conclusion di Mathieu ta cu hopi biaha ta usa resultadonan di investigacionnan contra opositornan. Mas ainda, tin miedo cu ciudadanonan por entama caso contra Gobierno si tin relevacion riba dump. "Pero pa por bin cu solucion viable,

Gobierno mester haci investigacion y publica e data."

E problema di dump ta multifacetico y complica, y awor a bira un discusion politico. Segun e investigado no ta cuestion di punta dede, pero ya a bira un sistema riba su mes cu no ta parece di ta cambia. Particularmente, si esnan cu mas lo beneficiar de cambio no tin poder y no por logra sosten pa nan causa.

Aunke Gobierno a anuncia cu dump lo cera na fin di 2022, mayoria respondiente ta bisa cu nan no ta kere cu esey lo sosode. Pero comunidad di Parkietenbos ta confrontando un multiple di injusticia ambiental, segun Laura Mathieu, mas cu cualkier otro parti di e isla, ya cu nan no tin acceso na aire y tereno limpi, y ningun poder. Y e investigacion riba injusticia ambiental na Parkietenbos ta pa trece e storia di habitantenan dilanti. A pesar cu e tema ta hopi delicado y controversial, den ausencia di un contesta directo, e ta criticamente importante pa esnan afecta tin un stem, ta e conclusion.

Ex-minister Otmar Oduber a recupera su libertad

Ayer atardi varios medio di comunicacion local a informa comunidad cu hues comisario a suspender detencion di ex-minister Otmar Oduber y el a recobra su libertad back.

Na momento cu Oduber a sali for di KIA despues cu a keda deteni pa 10 dia, varios medio di comunicacion, su abogado Vito Carlo, amigonan, familiar y su pareha tabata presente unda el a sigura cu no por duna mucho detaye, bisando cu su abogado ta e persona encarga di duna

mas informacion.w

Cu su yiu homber na banda, Oduber a expresa na e website Aruba Native cu "manera m'a bisa, berdad semper ta vence maldad, mi yiu homber ta un cu a wordo persigui y mi tin cu bisa cu esaki danki na periodismonan cu ta tuma luga cu shisheria, periodistanan cu ta purba plama cosnan pero cu na caminda manera ma bisa, berdad semper ta alcanza e mentira".

Ademas, el a expresa cu e dianan cera den KIA "tabata hopi duro" y cu e lo sigui

coopera na e investigacion.

Oduber ta e sospechoso principal di e caso penal "Flamingo", e ta wordo sospecha di comete shete delito: falsificacion di documentonan, estafa, aceptacion di soborno, mal uso di su funcion como minister, participacion den un organizacion criminal, labamento di placa y onverklaarbare vermogensverhoging loke ta nifica cu ex-minister Oduber no por a duna un splicacion legitimo pakico y con su posicion financiero a mehora.

Varios sindicato ta convoca comunidad pa asisti na ‘Marcha di Pueblo’ diamars 24 di mei

SIMAR, SEPPA, SPA, SADA, STA y OPPA ta sigui muestra nan mal contento cu diferente punto y a dicidi di convoca un marcha pa diamars awor 24 di mei unda cu nan lo cana den un marcha pasivo y silencioso den direccion Bestuurkantor.

Edward Maduro presidente di Sindicato di Aduana (SADA) a expresa cu nan como sindicatonan preocupa cu e situacion den su totalidad a dicidi di yama na e marcha aki pa asina ey muestra e “mal contento y tristeza cu ta bibando no solamente e miembronan directo di sindicatonan, pero tur hende cu di un of otro manera ta wordo afecta door di e miembronan y door di e situacion”, el a bisa.

Nan ta yamel’e e ‘Marcha di Pueblo’ pa motibo cu nan ta considera cu tur hende ta wordo afecta, di e forma ey nan ta bay muestra nan tristeza di lo cual ta pasando na Aruba na e momentonan aki, segun Maduro a confirma.

“Nos ta yama un y tur cu ta sinti su mes afecta of yama, mirando e situacion cu nos ta bibando aden pa yega diamars awor pa 3or di atardi na EX-DOW”, el a señala.

Tambe, el a afirma cu pueblo mes sa kico ta pasando, cu nan no mester duna detayenan di kico ta bin sosodiendo unda cu segun el a sigura “e ta hopi mas amplio y hopi mas grandi di lo cual algun hende ta bin comenta”.

Esaki no ta dirigi solamente pa empleadonan publico, semi-publico y sindicatonan, Maduro a bisa cu esaki ta bay hopi mas leu y ta p’esey cu nan ta keda referi na e pueblo di Aruba, unda cu aworaki ta bay ta e oportunidad pa comunidad demostra lo cual ta sinti “nos tin un gobierno cu a bin propaganda cu hende ta central pero nos no por wak con nos por bisa con e hende ta central”, Maduro a comenta.

Desde cu nan a tuma nota cu secretario di estado di Hulanda, sra Alexandra van Huffelen lo bin Aruba proximamente, nan a manda un carta pidiendo audiencia un biha mas pa asina e sindicatonan aki tambe lo reuni cune pa informa kico ta sosodiendo y kico nan ta experienciando. Ya

caba nan a reuni cu secretario di estado den un ocasion, unda cu sindicatonan a sinta cune na VNO algun lunanan pasa.

Ademas, el a señala cu semper lo tin hendenan cu ta purba desacreditanan, sindicatonan cu ta para pa nan miembronan y pueblo en general “nos tin cu refuta tur e acusacionnan falso contra sindicatonan cu nos tin un of otro agenda, mi ta kere cu nos ta bin ta wak esaki pa hopi tempo caba, nos como representantenan, director di trahadonan ta wak cu nos ta wordo trapa dia aden y dia afo, derechonan ta wordo trapa, nos no ta wordo scucha, nos no tin ni un hende pa acudi na dje y esaki ta bay ta e momento oportuno pa tur hende, no tin miedo, sali y bin” el a afirma.

Maduro a enfatisa cu nan no ta sinta cu Gobierno di Aruba pa motibo cu “unabes cu bo ta sinta cu gobierno y cu gobierno sa bon cla kico nos ta bibando, mi ta haya un falta di respet cu na januari cu nos a sinta cu gobierno cu nos a scucha di nan y cu desde e tempo ey nos no a scucha nada mas, aworaki cu de repente nos a bisa cu nos ta bay haci un marcha, minister presidente a saca un comunicado ayera pa duna un par di informacion, pa nos ta un falta di respet”, Maduro a expresa.

Di esaki, el a trece dilanti e pregunta: pakico gobierno no ta duna atencion na e trahado?

Di mesun manera, ayera prome minister den un comunicado a duna di conoce cu el a yega na acuerdo cu Hulanda pa stop e cortamento di salario. Esaki despues di

negociacionnan cu Hulanda, ayera mainta secretario di estado Alexandra van Huffelen a bay di acuerdo pa Gobierno di Aruba stop e recorte, bao e 3 condicion:

1. E ley di Wever-croes-norm of asina yama LNT mester ta na vigor. E ley aki ta den e fase final di tratamiento den parlamento y lo wordo trata pronto.
2. E gastonan adicional mester sali di e propio presupuesto pasobra Hulanda lo no duna sosten di likides pa e gastonan aki. Manera ta conoci Gobierno di Aruba a incorpora e gastonan aki den e presupuesto di 2022 pa paga e 5% back den di dos mita di aña.
3. E recorte di 25% di salario di politiconan lo keda. Prome minister Evelyn Wever-Croes anteriormente a bisa caba cu si politiconan mester sigui corta cu 25%, nan lo haci’e, basta cu empleadonan di sector publico y semi-publico si

haya nan salario back.

Tocante e punto aki, Maduro a enfatisa cu nan no ta confia den esaki “pasobra tanten cu no tin hechos, nos no por confia den palabra” el a finalisa.

Manera ta conoci, Gobierno di Aruba a entama un caso contra SIMAR unda cu den sentencia tabatin un par di punto cu Josephine Albertus, su presidente a splica caminda el a sigura cu “nan kier silencio nos por completo cu nos no por sali mas pa haci ningun accion, nos por bisa cu hues a bari esey for di mesa”.

Otro punto cu nan tambe a trece dilanti ta pa traha un ora menos pa dia y esey no tabata por, manera Albertus a afirma, “ora cu nos a haya e sentencia back e ta bisa cu nos no por traha e ora menos pa dia y cu nos no por sali y exige pa kita per direct e 12.6%,

den e veredicto di e articulo 8 ta skirbi cu bo mag di sali y muestra bo mal contento, esey ta e derecho cu cada ciudadano tin”, el a indica.

Esey ta nifica cu nan por organisa e marcha aki y cu no tin relacion cu e topico di reduccion di salario di 12,6%, “esey no ta cuadra cu realidad, e flyer di e marcha ta indica cu pueblo den totalidad ta cansa y nos ta marcha otro siman pasobra Gabinete Wever-Croes 1 y 2 a campaña cu ser humano ta central y nos como lider sindical nos no ta mira unda e ser humano ta keda central”, Albertus a enfatisa.

Sinembargo, Magaly Brito a sigura cu e recorte di salario di 12.6% ta sigui keda un problema y un preocupacion di esunnan cu ta emplea pa gobierno y esunnan di empresanan estatal, “e ta hopi cla, e ta un dolor y e hecho cu tin un sentencia cu nos por debati y interprete, no ta kita afo cu e hendenan ey, e trahado ey tin e dolor akinan, e no ta un victoria pa sindicatonan y tampoco pa un dunado di trabou cu na su momento a haya ta bon di negocia cu salario di trahadonan, pa mishi den cartera di hende sin tene cuenta cu su derechonan y cu ni sikiera a puntr’e, esey ta un tema cu sigur ta forma parti di e preocupacionnan cu tin pero na e momentonan aki e punto principal di sindicatonan SIMAR, SEPPA, SPA, SADA, STA y OPPA ta keda cu e desaroyonan cu ta andando na Aruba”, Brito a expresa.

SIMAR: “Ora cu kier innova y desaroya, e mester ta algo continuo, no ta algo di awo y despues no tin ora p’e”

Durante e conferencia di prensa diahuebs mainta, presidente di Sindicato di Maestro di Aruba (SIMAR), Josephine Albertus, splica tocante un parti di e resultadonan cu SIMAR a saca afo durante e conferencia di dia 10 di mei ‘Enseñansa, Nos Responsabilidad’. Albertus a elabora ariba algun punto cu a resalta di parti di participantenan como tambe di parti di e sindicato cu ta importante pa e veld di enseñansa.

Albertus a indica cu e conferencia a bay hopi bon y tabata exitoso mirando cu pa SIMAR como indicato ta hopi importante pa crea y concientisa e pueblo completo pa tambe ricibi informacion y durante e conferencia nan por a duna informacion riba e retonan cu tin den veld di enseñansa y tambe e perspetivanan cu e retonan aki lo trese cune.

El a remarca cu e conferencia tabata un oportunidad pa nan duna informacion y nan haya hopi bon tambe cu e tabata un lectura interactivo na unda cu esnan presente y na cas por a haci pregunta y na mesun momento duna nan ponencianan.

“Asina ey e tabata interactivo na unda cu nos tabata brinda informacion y alaves nos tabata ricibi informacion, y esey ta hopi importante pa nos como sindicato mirando cu nos ta vocifera e preocupacionnan cu tin den e veld, sali pafo y duna informacion den esaki”, el a señalá.

Albertus a indica cu den e mesun sala cu SIMAR a sinta Departamento di Enseñansa tabata presente na unda cu e director di e departamento a splica ki perspectiva nan ta bezig cune caba, y ki innovacionnan ya caba ta andando. Segun el a sigui splica loke a sali afo tambe ta cu hopi biaha e veld y pueblo no ta na altura di ki innovacion tin, dus tabatin tambe critica constructivo cu a wordo duna na Directie Onderwijs pa nan corda cu nan mester brinda informacion den un forma efectivo.

E presidente di e sindicato a subraya cu SIMAR a yega su meta pasobra nan a ricibi tambe feedback, no solamente di e veld di enseñansa pero

di diferente stakeholders di diferente area na Aruba. Esaki, Albertus a indica, a habri lasonan tambe pa despues sigui brinda informacion y sigui traha hunto pasobra manera e tema di conferencia ta bisa, enseñansa ta algo cu mester wordo carga hunto.

Pa loke ta trata e ponencianan unda cu nan a bisa cu pa por tin innovacion esnan cu tin cu ehecuta mester participa y ta involvi, Albertus a menciona cu nan ta contento pa tende cu esnan cu tabata presente por a duna nan opinion riba e ponencia y tambe a bay di acuerdo cu e ta hopi importante.

Otro ponencia cu e sindicato a presenta ta pa crea ora y posibilidad pa e profesionalisacion di e veld por ta algo realistico. El a subraya cu ora cu kier innova y desaroya, e mester ta algo continuo, no ta algo di awo y despues no tin ora pe, y esey tambe, el a indica, cu esnan cu tabata presente na e conferencia a bay di acuerdo cune.

El a enfatisa cu tambe door di trese informacion afo, concientisando e pueblo completo riba e retonan cu tin, a pone tambe cu nan ta haya com-

prension y compronde cu como sindicato nan ta para, vocifera y purba di trese e interes di e veld di enseñansa pa dilanti y alaves haya informacion di stakeholders den enseñansa.

“Pa nos como sindicato e tabata un conferencia hopi bon, fructifero, unda cu nos a haya informacion pa nos por sigui riba e parti pa garantiza e interes di e veld di enseñansa y tambe pa asina nos por sigui traha conhuntamente cu diferente stakeholders pa nos por hisa e calidad di nos enseñansa y brinda tambe un desaroyo realistico pa tin fruto di dje den futuro di pais Aruba”, Albertus a resalta.

Pa loke ta e retonan cu tin, Albertus a menciona cu un di nan ta infraestructura. Infraestructura no ta solamente edificio, el a señalá, pero e ta tambe e hermentnan cu tin, e electricidad, e internet, ntre otro, y esey tambe ta cosnan cu tin nan retonan cune.

El a remarca cu tur scol tin un mantencion cu mester tuma luga, e diferencia ta cu e gravedad, e seriedad di cada scol ta otro. “Un scol lo tin un of dos cos unda cu mester mantencion y otro tin hopi

cos. Kiermen por bisa cu cada scol tin mester di mantencion pasobra tur edificio mester nan mantencion, pero na cierto edificio e ta mas pio cu otro”, el a agrega.

Albertus a menciona tambe cu hopi biaha loke nan ta scucha como sindicato, tambe ora cu nan sinta cu DOW, ta cu e presupuesto cu tin no ta realísticamente suficiente pa carga tur e renobacionnan cu mester.

Loke a sali afo tambe pa SIMAR ta cu den un parti di innovacion unda cu tin desaroyonan nobo, algo cu Directie Onderwijs mes a papia di dje, ta u no ta tur scol ta mesun leu den desaroyo di innovacion y esey tambe tin su retonan cune.

Loke a sobresali hopi biaha, Albertus a subraya, ta e leynan anticua y e oranan. Pesey pa SIMAR un di ponencianan ta pa crea oranan pa e docentenan por profesionalisa nan mes. El a recorda cu ora cu kier tin innovacion, nan kier pone e alumno central, pero si esnan laborando den e veld pa guianan den nan trayecto como docente, como coach, como diferente otro meta, no ta cla, nan no ta comodo

den e parti di innovacion, e ta bira difícil pa e alumno bin na prome luga

El a sigui splica cu den nan presentacion nan a tuma tres herment di innovacion cu mesterr bin pa asina tin un fundeshi solido. Un di nan tabata e leynan anticua cu tin pasobra pa por tin innovacion no por tin leynan anticua cu lo por strobe e proceso di innovacion.

Den e parti di e tarea di e maestronan, Albertus a enfatisa un biaha mas e cantidad di ora cu nan tin pa e por brinda enseñansa na e alumno, pa nan por prepara pa profesionalisa nan mes. Esey, Albertus a subraya, ta algo cu ainda mester wordo dilinea pa e por bay na un manera realistico pa ora cu tin innovacion e ta na un manera cu por garantiza continuidad.

Pa loke ta e parti di finanzas, otro punto principal cu SIMAR a trese pa dilanti, Albertus a splica cu no por pidi un scol duna diferente cos na un nivel of cu e mester ta na mesun cos cu otro islanan den reino, na unda cu nan si ta haya mas fondo y na Aruba tin menos fondo, pero toch mester yega na e mesun meta cu nan.

Dos cuenta anual...

Uno transparente y e otro...?

Casi simultaneamente a sali e cuentanan anual di dos entidad importante: AZV y ATA. Loke nan tabatin di relata ta muestra e dos caranan di nos situacion nacional. Uno no ta duna solamente un presentacion, pero ta pone e relato completo riba su website. E otro a duna poco cifra general y manera ta nan custumber no ta publica nada mas. Un practica conoci, riba cual nos lo bolbe mas dilanti.

Tin mas contraste pa nos observa. Un ta refleha e costonan grandi di nos sistema di salud, golpea fuertemente pa e crisis di Covid-19, cu a causa un caida grandi di entrada via prima y impuesto indirecto BAZV. Por mira un recuperacion parcial di e fuentenan di entrada mayor, pero di otro banda tin e compromiso tambe di austeriza, e famoso 60 miyon florin a base anual cu mester corta. Si por papia di un 'meevaller' aki, esey lo ta cu 2021 a cera cu menos asegurado cu na 2020 y na 2019. Esey no ta solamente loke cifranan di AZV ta muestra, sino ta resulta tambe di e personanan registra na Aruba, segun cifra proporciona pa CBS Aruba. Nos ta bolbe riba e tema specifico aki.

E otro cuenta anual ta refleha e recuperacion economico, principalmente den sector turistico y otro sector mas directamente liga na turismo, cu a tuma lugar caba den e promer aña despues di e crisis. Di parti di e entidad aki por a haci un aporte fuerte na caha di gobierno, fruto di e beneficiacion di e aña. So far, so good, y awor ban spera cu e recuperacion ta sigui fuerte den e aña aki tambe.

Por mira cierto desaroyo notable tambe den e cifranan demografico di nos isla. Por ehemplo den e cantidad di nacemento, cu a sigui na un nivel di apenas 1.008 pa aña 2021 (1052 pa 2020). Gradualmente durante e ultimo añanan nacemento a keda baha, di mas di 1.200 na 2016 y 2017, te na e nivel actual di practicamente mil so. Durante 2021 por a observa tambe un mortalidad remarcablemente mas halto cu e añanan anterior. Mientras cu 2020, a pesar di e crisis di Covid, tabata na un nivel comparable cu e añanan anterior (743), 2021 ta registra 964 fayecimento, e cifra mas halto registra te awor aki y na un nivel di alrededor di 200 fayecimento mas cu e average di e ultimo añanan. Cu e cifranan aki, e crecimiento natural tabata casi no existente. Di otro banda, cifranan di inmigracion y emigracion ta muestra cu, desde 2019 caba por nota cu tin mas persona ta sali di Aruba, cu tin ta dreña. Na 2020 registracion di residente

nobo a baha fuertemente te 1846 persona, y na 2021 e cifra aki a subi levemente te na 2193, pero a sali 2712 persona den e mesun aña. Pa AZV menos persona segura por significa menos gasto, pero por significa tambe menos hende pa aporta. Y en vista di e gastonan aumentando cu e poblacion riba 60 aña, cu gasto relativamente halto cu ta keda crece, esaki ta keda un desaroyo preocupante.

Finalmente, manera bisa anteriormente, tin un diferencia grandi den forma di informa entre e dos entidadnan. Uno ta cumpli cabalmente cu su obligacion di informa, poniendo su relato completo riba su website, di manera cu cualkier ciudadano por mira kico AZV a haci o no a haci. Di e manera aki e organo ehecutivo di gasto di salud ta pertenece na e manyen di entidad (semi) gubernamental cu ta tuma nan papel informativo na serio, manera Banco Central, Camara di Comercio, WEB Aruba NV, SVb y algun mas cu nos por a lubida. No por bisa mesun cos di ATA sin embargo, cu ta presenta e cifranan mas general pero no ta duna claridad completo publicando nan cuenta riba nan website. Mas grave ainda ta cu gobierno no ta percura pa e demas entidadnan cumpli cu nan tarea informativo, y ta parce cu ta gobierno mes no ta desea di duna claridad. Y esey mientras cu esakinan ta e cosnan cu no ta costa nada; ta solamente un cuestion di pone nan relato, cu nan tin disponible digitalmente caba, pa un y tur por tuma nota. Esaki naturalmente ta incomprendible y inaceptable, sigur di un gobierno cu no ta perde ningun oportunidad pa vocifera nan supuesto compromiso di ta practica transparencia. Ta kico tin di sconde den tur e cuentanan anual cu Aruba no mag mira?

Di igual forma lo ta bon pa nos disfruta di e aparente transparencia predica den e caso di e opinionnan encunto e ley di Reino encunto COHO y supervision financiero. Di basta tempo caba nos por a tuma nota cu mayoria di nos parlamentarionan tin tur tipo di malestar estomacal y intestinal cu e dos proyectonan di ley di Reino, y ta bira tempo pa nos haya sa mas den detaye ta kico ta nan malestar, pa por huzga si ta trata di obhecion obhetivamente sustancia o di mero hugada trivial pa gana tempo so. O, si no kier duna claridad, nos lo mester warda te cu resulta di e tratamiento den parlamento Hulandes pa sa kico ta e posicion cu nos parlamentarionan a tuma. Anto e ora no mas, nan kier pa nos huzga? Ta te ki dia nos mester soporta e tipo di farsa di supuesto 'representacion democratico digno' aki?

A yega na acuerdo cu Hulanda: entrante juli 2022 lo stop recorte di 5% Y pa 2023 lo stop e recorte di 12.6%

Premier Evelyn Wever-Croes a informa un rato pasa cu el a yega na acuerdo cu Hulanda pa stop e cortamento di salario. Esaki despues di negociacionnan cu Hulanda, awe mainta Secretario di Estado Alexandra van Huffelen a bay di acuerdo pa Gobierno di Aruba stop e recorte, bao di 3 condicion:

1. E ley di Wever-Croes-norm of asina yama LNT mester ta na vigor. E ley aki ta den e fase final di tratamiento den Parlamento y lo wordo trata pronto.
2. E gastonan adicional mester sali di e propio presupuesto pasobra Hulanda lo no duna sosten di likides pa e gastonan aki. Manera ta conoci Gobierno di Aruba a incorpora e gastonan aki den e begroting di 2022 pa paga e

5% back den di dos mita di aña.
3. E recorte di 25% di salario di politiconan lo keda. Premier Evelyn Wever-Croes anteriormente a bisa caba cu si politiconan mester sigui corta cu 25%, nan lo hacie, basta cu empleadonan di sector publico y semi-publico si haya nan salario back.

Premier Evelyn Wever-Croes ta hopi contento cu e decision aki. “Nos meta tabata caba pa entrante 1 di juli 2022 stop e recorte mensual di 5%, y pa otro aña 2023, stop e recorte di 12.6% completamente. Y awor esaki a wordo realisa”.

Esey kiermen cu entrante 1 di juli 2022, e empleado publico por bay haya su salario completo back, y entrante otro aña e por haya su vakantiet uitkering tambe. Y sin cu

mester troca esaki pa diano liber.

Pa loke ta e condicionnan cu Hulanda a impone, Premier lo bay delibera cu Parlamento riba e ley di “Wever-Croes-norm”, pa haya sa ki tempo e ley lo wordo trata y lo pidi Parlamento pa trata esaki mas lihe cu ta posibel pa asina tur cos ta cumpli cune pa cuminsa paga e empleado publico y semi-publico e 5% entrante 1 di juli 2022.

“Mi ta gradici tur empleado publico y semi-publico pa tur nan sacrificio duna desde mei 2020, y mi ta felicita boso. E negociacion tabata duro y a tarda, pero mi ta hopi contento cu pronto empleadonan lo cobra nan salario completo back. Mi ta contento cu nos a cumpli cu boso”, Premier Wever-Croes a expresa.

Minister Maduro di Finansa ta informa:

IMF ta na Aruba pa ricibi informacion financiero y economico mas actual

E siman aki IMF su mission team cu ta evalua Aruba ta di bishita pa asina por reuni cu varios instancia y asina haya informacion actual di e situacion financiero y economico di Aruba.

Na inicio di e bishita, Minister di Finansa a

reuni cu e team pa splica riba e retonan cu tin riba finansa publico y kico ta wordo haci riba e tereno aki na bienestar di Aruba. Cu e informacion actualisa, e mission team ta prepara pa e evaluacion financiero y economico den forma di un Article IV mission cu lo tuma lugar den 2023.

Paris o Parijs? Variedad den number geografico...

Den nos edicion di e siman aki, atencion pa e forma di usa number geografico den nos idioma nacional. Como cu nos ta adopta palabra di varios fuente, ta logico cu nos ta haya nos confronta cu uso simultaneo di number cu ta varia pa loke ta nan forma di skirbi segun e idioma na cual ta referi. Asina nos ta lesa o scucha regularmente hende cu ta papia di Belgica, België o Belgium, Francia, Frankrijk o France, Alemania o Duitsland, Irlanda o Ierland, Escosia o Schotland, etc. Di con e diferencianan aki, y semper e tabata asina? Asina leu cu nos conoce pasado di nos pais, digamos te un 60 – 65 aña pasa, practicamente no tabatin hende cu tabata usa e nombrenan aki den nan variante Hulandes. Muy probablemente esey a cuminsa haya forza cu e emigracion y despues remigracion di gruponan grandi pa Hulanda den añanan 80, ademas di e grupo mas grandi cu ta bay studia na Hulanda tur aña. E grupo cu a y ta custumbra cu idioma Hulandes a desaroya e custumber di usa e nombrenan geografico na Hulandes tambe. Asina hopi biaha nan no ta bisa Paris, sino Parijs, ta skirbi Londen y Brussel envez di Londres y Bruselas, etc.

Asina tambe esnan cu a studia o biba na Merca tin e tendencia di haci uso di e nombrenan segun idioma Ingles. Tin algo di malo den esaki, o nos mester trata tur e variantenan por igual? Kico ta sabiduria den esaki? Pa por duna un contesta adecua, ta importante pa nos tira un vista mas leu ainda den pasado, pa mira kico tabata e practica e temponan aya. Nos por observa cu den pasado, sigur tambe den nos medionan di comunicacion, manera radio tempo cu no tabatin television ainda, tabata usa exclusivamente e variantenan deriva di Spaño. Esaki no tabata conta solamente pa e nombrenan geografico, di pais y ciudad, sino tambe pa e adjetivonan deriva di esakinan. Asina Francia tin ciudadano Frances, nan ta papia Frances; na Alemania bo ta haya ciudadano Aleman, cu ta papia Aleman.

Remarcable ta cu, aunke tin un parti di e poblacion actual cu tin custumber di usa number na Hulandes o Ingles, no tin uso di e variantenan aki ora ta trata di adjetivo. Pues esnan cu ta insisti di bisa Frankrijk envez di Francia, ta papia di ciudadano Frances cu ta papia Frances. Poco biaha lo sucede cu un persona por ehemplo ta bisa cu el a topa cu un ‘Fransman’ cu tabata papia ‘Frans’. Igualmente no sa bisa cu a mira un Duitser cu a insisti di papia Duits. E uso di e nomenclatura Hulandes aparentemente ta keda limita na e nombrenan di pais o ciudad mes, mientras pa e demas palabranan deriva ta keda usa e variantenan deriva di Spaño.

Tambe nos por observa cu den uso diario di number geografico den Papiamento tin cierto uso peculiar y no corecto. Asina tin ciudadano ta papia di ‘Rusiano’ envez di ‘Ruso’. Tambe sa tende ‘Argentinero’ envez di ‘Argentino’. Otro mas cu nos ta scucha cu regularidad ta cu ta usa e number ‘Santo Domingo’ cu ta number di e ciudad capital, pa indica e pais, cu yama en realidad ‘Republica Dominicana’. Uso consecuente den nos medionan di comunicacion por aporta na uso corecto di number.

Nos a consulta tambe nos Vocabulario di Papiamento, cu ta muestra cu pa gran mayoria di pais no tin un mencion, pues tampoco un version preferencial di skirbi esakinan. Esaki por ta un adicon importante den un proximo version di e Lista, aunke ta logico cu no ta e idea tampoco pa crea un version na Papiamento pa tur number geografico na mundo, mirando nos recursonan limita.

Parlamentario drs. Mervin Wyatt-Ras ta trece padilanti cu durante un dia cu diferente reunion, fraccion di AVP a entrega un carta cu peticion pa yama un reunion publico encuanto di e medida di eigenbijdrage y austerisacion di lista positivo di remedinan.

Wyatt-Ras ta sigui menciona cu parti mainta a reuni cu tres instancia regardando criminalidad y castigo pa hobennan (jeugdstrafrecht). A reuni cu KIA, Stichting Reclassering en Kinderbescherming y Sociale Zaken. Aki cada instancia a duna nan presentacion.

Prevencion ta keda e yabi importante pa evita cu hobennan ta cay den e trayecto hudicial y sigui den e trayecto aki. Ta necesario pa Huesnan tene cuenta cu circunstancia individual di hobennan ora di castigo. Castigo mas halto no ta garantisa cu e hoben no ta bolbe comete actonan di criminalidad.

Hobennan bou guia di Reclassering pa 50% ta dropouts y 65 % ta bin di famianan di un solo mayor di mayor soltera(o). Ta haci uso mas y mas di sancionnan alternativo entre otro trabou pa comunidad. Tin ademas castigo di trabou y leerstraffen.

Wyatt-Ras ta haya necesario cu ta haci un investigacion di e tipo di problematica cu ta haci cu e hobennan ta drenta den e circuito di criminalidad. Uso di droga tambe ta un aspecto. Paso ora nan sali back y bay den nan famia cu e mesun problematica ta cay back. Tin di e mayornan tambe ta den criminalidad of

ta bende droga door di cual e hoben cu no por haya trabou door di stigmatisacion tambe ta sigui den mesun patronchi y ta bay bende droga of anda cu mesun amigonan cu ta influenci'e negativo y push'e back den criminalidad.

Necesario segun Wyatt-Ras ta registracion di muchanan den categoria di risico y monitorea nan. A inverti 36 mion florin den un Crisisplan pero no a haci nada na registracion y ni cooperacion entre instancianan.

Ta necesario pa instancianan sali for di nan isla y uni mas cu otro pa por atende e problematica di nos hubentud. Ta necesario pa nos comunidad cambia su forma di pensa pa loka ta trata hobennan cu a haya nan mes confronta cu husticia. Mester kita e stempel/stigma ariba e hoben.

Den KIA ta necesario mas atencion pa e hoben y su necesidadnan, mas profesional specialisa riba e tereno di hubentud y opleiding pa forma hobennan den bon direccion.

En bista cu gastonan pa un hoben ta ser deteni y permanence den KIA ta casi 100.000 ta necesario y urgente pa inverti den prevencion en bes di laga yega asina leu cu hobennan ta end up den KIA.

E di dos reunion cu a inicia atardi, tabata referente e relatonan di e reaccionnan y preguntanan di diferente fraccion riba e dos leynan di reino RAFT y COHO. Parlamento lo manda nos reaccion pa Hulanda. Ta lastima cu Hulanda a duna asina tiki tempo pa bin cu reaccion. E leynan di Reino menciona ta mina autonomia di nos pais

Mervin Wyatt-Ras (AVP):

Fraccion di AVP cu carta pa pidi reunion publico encuanto e medidanan di eigenbijdrage

Y austeridad di lista positivo di remedinan

y ta haci nos rol como parlamento uno zwak y insignificante. Nos fraccion ta contra di ambos ley.

A conclui e dia cu e reunion cu director y profesionalnan di AZV tocante nan relato financiero, eigenbijdrage y positieve lijst. Durante e reunion Wyatt-Ras a trece padilanti cu awor cu entrada di AZV, despues di e temporada di COVID, a cuminsa aumenta door cu mas hende tin empleo y e entrada di primanan y BAZV a aumenta, por tene cuenta cu nos pueblo cu no tin pan ni pa come y cu costo di bida halto pa no tuma e medida mas. E medidanan aki di tres wave lo encera cu ora un ciudadano cu ya no tin suficiente placa den su cartera yega na Spoedeisende Hulp e lo mester paga 15 florin. Ora e yega Huisarstenpost e tin cu paga 15 florin. Na specialista e lo paga 5 florin, na botica 2 florin pa cada receptregel y na laboratorio 1 florin pa casa test. Si suma esakinan ta hopi e pashent mester paga.

Wyatt-Ras a tuma nota di declaracion di director di AZV encuanto cobramiento di BAZV y e ta urgi tur hende pa pidi nan recibo of slip ora nan paga pa yuda cu control di pago di BAZV. Aki sigur cu lo por haci mas segun Wyatt-Ras pa haya entrada pa AZV door di cual no mester bay over na mishi cu cartera di nos ciudadanonan cu ya caba ta bashi. Tambe segun Wyatt-Ras mester por busca otro formanan pa mehora y corta vet otro caminda, p.e. pa haci compra central di medicina, pa mihor cooperacion y referencia di pashentnan pa evita cu mucho liher un pashent ta pasa pa tweede lijn. Tambe por evalua e estadia di pashentnan den exterior di cual un cantidad ta keda mucho dia, hasta lunanan y aña den exterior sin ricibi tratamento. Nan tin cu keda warda ayanan prome cu haya cuido.

Wyatt-Ras a puntra tambe tocante sociaal vangnet y si AZV ta na haltura si lo bin un vangnet social pa esnan di menos recurso. Ademas el a cuestiona cu no ta tene cuenta cu stakeholders cu a trece padilanti na Parlamento y. Minister cu nan no ta ekipa pa cobra pashent nan cual ta trece cune extra trabou administrativo y preocupacion cune. Tin cu evita klassezorg y cu cuido ta bay atras netamente awor cu covid a trece cune diferente consecuenan negatibo di salud pa e pashent.

Wyatt-Ras a menciona alabes cu Raad van Advies ta cuestiona cu no ta aclaria con introduccion di eigenbijdrage lo tin un remmende werking riba crecimiento di gastonan di cuido. Ta ser menciona cu gobierno ta consciente cu di loka ta ser menciona den literatura cu eigenbijdrage por

conduci na zorgmijding. A pidi aclaracion riba esaki.

Wyatt-Ras ta trece dilanti cu ya caba e landsbesluit pa regla e medidanan di eigenbijdrage y austerisacion di lista positivo di remedi a drenta Parlamento y segun ley lo mester keda den parlamento pa 2 siman y despues di 2 siman e landsbesluit lo ser ehecuta. Fraccion di AVP ta haci un peticion na presidente di parlamento pa yama un reunion publico den presencia di minister di salubridad pa por discuti tocante e LB.

Ta importante pa pueblo ta na haltura di e medidanan di eigenbijdrage y austerisacion di e lista di remedi cu gobierno lo impone y sin ningun sosten pa esnan mas vulnerable den nos comunidad. Fraccion di AVP no ta di acuerdo pa introduci e medidanan aki. No por saca mas for di cartera di nos ciudadanonan.

Betref: Verzoek openbare vergadering omtrent het Landsbesluit eigenbijdrage en de negatieve consequenties hiervan voor onze bevolking en het medisch veld

Geachte Voorzitter,

Naar aanleiding van het ingekomen document d.d. 17 mei 2022 met als kenmerk sm-w-248-22 getiteld: Ontwerpslandsbesluit omtrent de invoering van eigen bijdragen voor het geldmaken van de aanspraak op een aantal verstrekkingen en tot wijziging van het Landsbesluit aanspraken genees- en verbandmiddelen (AB 2004 no. 18) in verband met de inwerking van de aanspraak van verzekeren op geneesmiddelen ten laste van het Algemeen Fonds Ziektekosten, wordt u door onze fractie verzocht een openbare vergadering met spoed te beleggen met aanwezigheid van de Minister van Toerisme en Volksgezondheid, dhr. Overeenkomstig artikel 22, tweede lid van de Landsverordening ziektekostenverzekering dienen de Staten twee weken de gelegenheid te krijgen om hun wensen en bezwaren ten aanzien van dit Landsbesluit aan de minister ter kennis te stellen. Minister di Enseñansa y Deporte tabatin e honor di por a dirigi algun palabra na tur participante di e 19 pais re-

gional den cuadro di e congreso CAROSAI, e aña aki organisa pa nos propio Contraloria General.

Minister Endy Croes a aplaudi e escogencia di e instancianan Supremo di auditoria, pasobra den su bista esaki tabata un escogencia strategico pa asina e auditornan por intercambia idea y dialoga resultado di nan investigacionnan por tin un impacto mas grandi den comunidad.

Identidadnan Supremo di Auditoria, manera nos Contraloria General di mes ta desplegando un trabao profesional y obhetivo. Nan investigacionnan ta wordo dirigi pa hechonan y nan trabao y publicacion ta obhetivo. Ta den e cuadro aki tambe Minister Endy Croes a comparti un tiki di su experiencia politico y awor tambe como mandatario, con cada actor, sea ta coalicion, oposicion of media, hopi biaha ta usa re-

Parlamentario drs. Shailiny Tromp-Lee (MEP):

Leynan di consenso di Reino COHO y RAft; kico nan ta?

Aruba ta den un pandemia di COVID-19 desde 13 maart 2020 y poco poco nos ta recuperando. Pa Aruba por a wanta cabes riba awa y bringa e crisis economico, financiero y social ocasiona pa e pandemia, Gobierno di Aruba mester a acerca Hulanda pa ayudo.

Hulanda na su turno a ofrece Aruba sosten di likides den forma di prestamo pa dos aña y mara na varios condicion. Un di e condicionnan ta e dos conceptonan di ley di consenso di Reino yama COHO y RAft. COHO ta para pa Caribisch orgaan voor hervorming en ontwikkeling y RAft pa Rijkswet Aruba financieel toezicht.

Mi ta agradecido na Hulanda pa e sosten di likides paso sin e sosten aki Aruba no por a cumpli cu su obligacionnan financiero actual y nobo y nos no por a yuda nos hende y companianan. Den mesun rosea mi no a compronde desde comienso e punto di salida di Hulanda. Nos no mester lubida e situacion precario y

di caos cu nos Pais a encontra su mes aden desde inicio di e pandemia di COVID-19: lockdown, aeropuerto cera, comercio plat, posibilidad cu mas cu 30.000 lo a perde trabou of entrada, companianan den problema financiero y asina nos por keda sigui menciona. Aruba su situacion financiero y economico a haci cu practicamente posibilidad pa financiamiento otro cu Hulanda no tabatin y si tabatin mes Hulanda mester a bay di acuerdo cu esaki.

Pais Aruba a haya su mes den necesidad y a acerca Hulanda como partner den Reino y a base di Statuto di Reino Hulandes pa ayudo. Aruba a haya su mes completamente dependiente di e ayudo di Hulanda y esaki a pone cu Aruba no por a haci nada otro cu bisa si na e condicionnan stricto cu Hulanda a mara na e sosten aki. Sin e sosten aki Aruba sigur no lo a sobrevivir pasobra sin e sosten aki Gobierno no por a keda funciona, no por a otorga subsidio di salario y tampoco duna sosten financiero na companianan chikito y mediano.

Ley di consenso RAft

E ley di consenso RAft ta conta solamente pa Aruba y ta basa den gran mayoria riba un ley, un ley di Reino y dos Protocol existente, esta Landsverordening Aruba financieel toezicht (LAft), Rijkswet financieel toezicht Curaçao en Sint Maarten (Rft) y Protocol Aruba Nederland 2015 y Protocol Aruba Nederland 2019-2021. Cu e propuesta di ley di consenso di Reino aki conseho di minister di Reino lo tin supervision financiero riba nos y e institucion existente CAft lo wordo estableci den un herarkia di ley mas halto di cual lo tin un rol di señala y duna conseho. E tareanan di CAft ta entre otro pa tene supervision si nos ta tene nos na e normanan stipula, ta raporta y duna conseho na Aruba y Hulanda y ta supervisa si e agenda di ehecurion ta wordo traduci corecto y den forma responsabel den e presupuesto di nos Pais.

Ley di consenso di Reino COHO

E ley di consenso di Reino COHO ta conta pa Aruba, Corsou y Sint-Maarten. E

obhetivo di propuesta di ley aki ta pa establece e organizacion COHO cu lo ta un bestuursorgaan consistiendo di tres miembro cu cierto autoridad riba su mes, y tareanan entre brinda sosten na e paisnan den ehecurion di tur accion cu ta mara na e pakete di pais (“landspakket”) y tene supervision riba e continuacion di esakinan (articulo 2 y 4). Hulanda ta argumenta cu reformanan mester tuma lugar na Aruba, Corsou y Sint-Maarten pa asina haci e paisnan mas resistente contra posibel crisis den futuro. Pa e motibo aki Hulanda ta indica cu e meta di e organizacion COHO ta pa brinda sosten na Aruba, Corsou y Sint-Maarten den implementacion di reformanan, pa realisa un finanzas publico duradero y sostenibel y pa fortalece e resiliencia di e economia di cada pais (articulo 3).

Pa loke ta trata e argumento di Hulanda sigur mi lo subraya cu nos tambe ta di opinion cu reformanan riba diferente tereno mester tuma lugar mas cu nos ta haya cu esaki-

nan mester ta bon plania y studia teniendo debido cuenta cu e consecuencianan pa e calidad di bida di nos hendenan y sigur no por tuma lugar simultaneamente.

Rol di Parlamento

Como Parlamentario mi ta sumamente preocupa cu e contenido di ambos concepto di ley di consenso di Reino y e motibo pakico nan mester ta den e capa di un ley di consenso di Reino. Autonomia di nos pais ta wordo mina y e funcion di nos como Parlamento ta wordo limita drasticamente. En cambio Hulanda ta haya hopi mas control y poder riba nos pais.

Pa e motibo aki mi a haci varios pregunta riba ambos concepto di ley di consenso di Reino y tambe a duna critica y sugerencia pa cambio den e verslag cu nos Fraccion a entrega dialuna 16 di mei 2022. Durante e simannan venidero mi lo bay amplia den varios articulo riba e contenido di ambos concepto di ley di consenso di Reino pa asina pueblo ta bon informa di esakinan.

Gobierno no mester compensa victimanan di impuesto cu no a keha na tempo

(NLTimes) - Gobierno no mester compensa personanan cu no a entrega un keho na Belastingdienst durante e tempo cu nan a paga impuesto demasiado halto riba nan placa cu nan a spaar den añanan recien, Corte Supremo a declara riba diabierna. Hulanda su corte mas halto a declara den contra di e persona cu a trece e caso dilanti, NOS a reporta.

Corte no por obliga Belastingdienst reduci esaki pa personanan cu no a keha tocante esaki na tempo, e Corte Supremo a bisa. E declaracion aki pro afecta miles y miles di persona.

E problema cu e impuesto aki ta cu Belastingdienst a usa un tarifa ficticio pa calcula e impuesto. Sinembargo pa motibo cu interes riba placa cu a spaar tabata asina abao den añanan pasa, algun biaha te hasta drentando cifranan negativo, e personanan a paga

impuesto riba placa cu nan mester a haya back cu nunca nan a ricibi.

Anteriormente e luna aki, Gabinete a introduci cu nan a pone na banda 2.8 biyon euro pa compensa mas o menos 60,000 persona cu a keha tocante e impuesto excesivo

riba nan spaar durante año 2017 te cu 2020. Automáticamente nan lo ricibi nan compensacion pa dia 4 di augustus. Sinembargo e pregunta ta keda, kico lo pasa cu e miles y miles di persona cu no a keha pero di tur manera a paga impuesto riba placa cu nunca nan no a ricibi.

Secretario di Estado Marnix van Rij di Finanzas anteriormente a bisa cu gobierno su decision tocante e compensacion di e personanan cu no a keha pa cu e impuesto aki lo keda basa riba e declaracion aki. E declaracion practicamente ta nifica cu e biyones di euro den compensacion

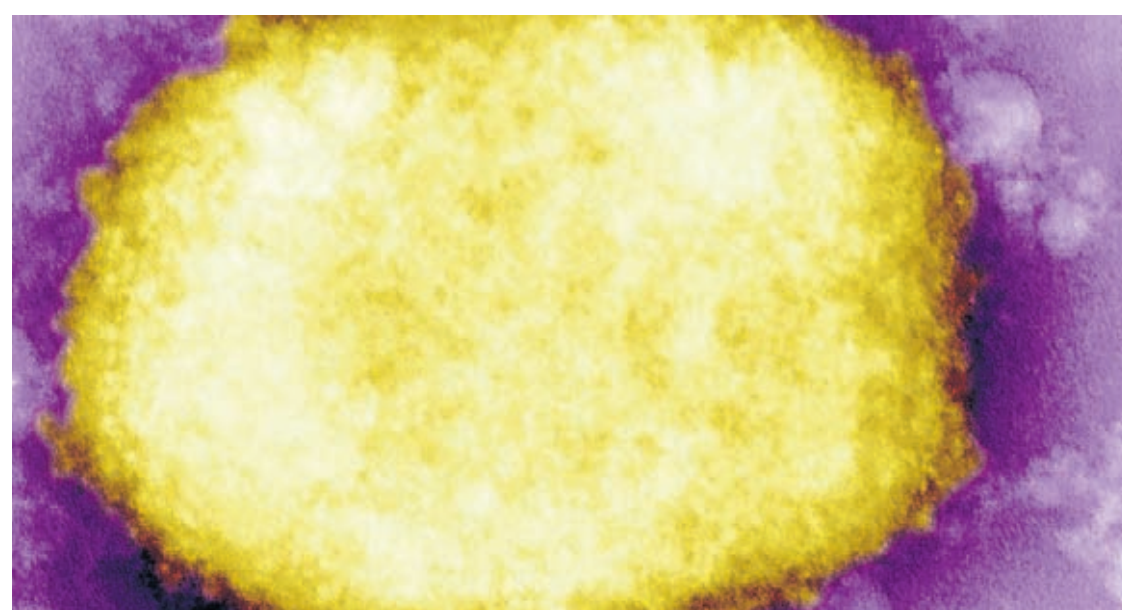

cu e Gobierno a premira cu lo mester paga, lo bira hopi mas abao. E gobierno prome a premira cu e compensacion aki lo costa mas o menos 11.7 biyon euro dependiendo di e estructura. Esaki ta duna un idea di e cantidad di personanan cu lo keda sin haya compensacion.

Prome caso di Monkeypox a keda reporta na Hulanda

(NLTimes) - E virus di Monkeypox a keda diagnostica na Hulanda pa prome biaha, e instituto di salud publico Hulandes RIVM a reporta. E organizacion ta bao e impresion cu tin mas persona infecta. Nan no a provee informacion tocante e persona su edad, genero ni tampoco su lugá di residencia.

Anteriormente diabierna, RIVM a bisa cu tin varios posibel caso di Monkeypox na Hulanda. E muestranan a ser manda na laboratorio pa examen. Varios otro paisnan Europeo a descubri y diagnostica casonan caba durante e brote actual, y RIVM tabata al tanto cu dentro di poco tempo e mesun situacion lo tuma lugá na Hulanda. E teoria aki a keda apoya pa e Minister di Salud Ernst Kuipers.

E virus ta nativo di Africa central y occidental. Ocasionalmente e sa surgi den otro paisnan, sinembargo tipicamente ta trata di un solo caso of di un persona cu recientemente a biaha bay Africa y por a keda contagia di otro persona. E brote actual ta

sorprendentemente grandi. Infeccionnan a keda detecta na Australia, Belgica, Canada, Francia, Alemania, Italia, Portugal, Suecia, España, Reino Uni y Merca.

E no ta conoci te ainda si e prome pashent na Hulanda recientemente a bay Africa. Varios pashent den otro paisnan no a biaha bay Africa recientemente. Ademas, hopi di nan no tabatin contacto cu otro, cual ta nifica cu e infeccionnan no ta relaciona cu otro, causando preocupacion den expertonan.

E vacuna general contra di smallpox tambe ta proteha contra e virus di Monkeypox, pero te ainda no ta sigur si e tipo di vacuna aki lo ser usa, segun Van Diesel. "Esaki ta un posibilidad. Pero, djis pa ta cla, nos no a yega na e punto aki ainda." E no a descarta tampoco e posibilidad cu un politica di vacuna lo keda introduci. "Den cualkier caso, nos tin e vacuna pa esaki si e bira necesario," Hefe di RIVM a conta RTL Nieuws.

Virologo Belgico Marc Van

Rants a conta RTL Nieuws, "nos ta den territorio desconoci pa motibo cu e brote no ta usual. Pa e momentonan aki e ta hopi trempan pa duna speculacion pa cu esaki."

Hende por contagia cu e virus via contacto di cerca, por ehempel, pa medio di mishi cu un persona su herida habri. E particularnan di e virus tambe por ta riba sabana di cama, por ehempel. Den brotenan di Monkeypox anterior, e blaarnan tabata cuminsa sali na e cara, cu e casonan actual e blaarnan ta saliendo rond di

e anus.

"Esaki ta diferente na loke nos sa di e virus," RIVM a declara. Entre e pashentnan di Monkeypox tin un cantidad significativa cu tabatin relacion sexual cu otro hende homber, cual ta duna e impresion cu nan a contagia via contacto cercano durante relacion sexual.

E region di Flanders na Belgica a introduci un periodo di isolacion obligatorio di 21 dia pa personanan infecta cu e virus. Expertonan a tuma e decision aki despues di a dialoga tocante e miho manera pa maneha e brote di e virus. Te cu awo, 2 caso di Monkeypox a keda registra den e parti Belgico aki cu ta papia Hulandes, pero e pareha di un di e pashentnan tambe ta demostrando sintomanan.

E blaarnan usualmente ta cuminsa na e cara y despues ta plama na otro partinan di curpa. Segun e gobierno, personanan cu un inmunidad reduci, muhenan na estado y muchanan tambe mester keda vigilante ademas di hendenan homber cu ta tene relacion sexual cu homber.

Finalmente Carnaval ta bolbe Corsou na 2023

Preparacionnan ya a cuminsa

(CuraçaoChronicle) – Gruponan di Carnaval na Corsou por cuminsa haci tur preparacion pa e paradanan di carnaval na 2023. Minister di Educacion, Ciencia, Cultura y Deporte (OWCS), Sithree

van Heydoorn a anuncia esaki.

Van Heydoorn a papia na e varios departamento di gobierno hunto cu e ministerio. Ademas, tambe a tene discusion cu representantenan

di gruponan di carnaval. E partidonan a bay di acuerdo cu ta bay curasha e poblacion pa participa den e preparacionnan pa e actividadnan di carnaval.

E minister tin speransa cu

e gruponan di carnaval por cuminsa na tempo y cuminsa traha pa tene tur cos den orden. Mientras tanto, gobierno ta bay monitor e desaroyonan regardando Covid-19. “Mi ta spera cu e infeccionnan no ta bay afecta e poblacion

mucho hopi y cu por celebra Carnaval responsablemente na 2023”, minister Van Heydoorn a expresa.

Mas informacion tocante Carnaval 2023 ta bay wordo anuncia pronto.

Malcontento entre doñonan di pompstation na Corsou

Pa motibo di regulador y parlamento

(CuraçaoChronicle) – Tin malcontento entre e 22 pompstation priva na Corsou. Nan no ta di acuerdo cu e calculacionnan di prijs maximo di regulador Bureau Telecom & Post (BTP). E margen cu ta laga pa nan ta mucho chikito.

E asina-yama ‘dealer margin’ ta casi 18 cen pa liter. Segun e doñonan di e pompstation, esey mester ta al menos 25 cen. E malcontento no ta dirigi solamente na minister di Desaroyo Economico, Rui-

sandro Cijntje, sino tambe na politiconan di partido gobernante, MFK den parlamento. Nan a sugeri cu e margen por hasta wordo reduci pa e cuatro pompstation propio di Curoil pa promove competencia.

E doñonan di pompstation priva ta haya e sugerencia di e parlamentarionan peligroso, y un bofta den cara di e casi 750 persona cu ta traha na e varios pompstation. Segun nan, reduccion di margen ta bay conduci na bancarota. No tin confiansa den regula-

dor di prijs. Awo a pidi minister Cijntje pa laga un partido independiente of comite di expertonan ehecuta un investigacion riba e margen pa doñonan di

pompstation. E 22 doño di pompstation priva no tin confiansa mas den BTP. BTP ta e regulador y mester conseha gobierno riba prijs di

combustible. E gruponan di interes Asogas, Copda y Vanddis a manda un carta na minister Cijntje. Nan ta kere cu e modelo di calculacion di BTP ‘no ta provee e margen corecto’ y mester wordo reemplasa.

E ‘dealer margin’ di e ‘model gas station’ lo ta incorrecto. Esaki ta e parti di e prijs cu e operadornan di e pompstation ta ricibi pa paga pa nan operacionnan comercial. Awo ta bay tin un auditoria independiente cu por ahusta e margen.

Van Huffelen: Corsou, Aruba y Sint Maarten por elimina reduccion di 12.5 porciento di salario

(CuraçaoChronicle) – Secretario di Estado pa Relacionnan di Reino, Alexandra van Huffelen, kier duna e paisnan e posibilidad pa elimina e reduccion di salario di 12.5 porciento.

E reduccion riba salario a keda estableci na mita di 2020 como respuesta na e pandemia di Covid-19, como un señal di solidaridad pa cu e mercado y pa reduci gastonan di gobierno. Awo cu e gastonan pa un bida normal

ta birando mas halto, mester reconsidera e reduccion di 12.5 porciento, e Secretario di Estado ta kere.

Van Huffelen: “Den ultimo periodo, e gastonan di un bida ordinario a aumenta enormemente pa motibo di e guerra na Ucrania. Hopi hende ta luchando cu e costo halto di por ehemplo cuminda y huur. Ademas, awo cu e economia a cuminsa mehora di nobo, e requisito pa reduci 12.5 porciento ya no ta mas importante cu e gas-

tonan ey. Tambe, recluta personal ta cada bes mas dificil, mientras bon personal ta di gran importancia. Cu esaki, mi kier duna e gobiernonan e posibilidad pa elimina e 12.5 porciento na nan propio manera.”

E condicion mas importante pa elimina e reduccion di 12.5 porciento riba salario na nan propio manera ta cu mester realisa e acuerdonan anterior riba standarisacion di entradanan top, y e reduccion riba salario di politiconan ta

continua. E eliminacion di 12.5 porciento ta bay wordo discuti pa Consejo di Minister di Reino dia 25 di mei

proximo. E Secretario di Estado ta bishita Aruba, Corsou y Sint Maarten for di 23 te cu 27 di mei proximo.

G7 countries to provide \$19.8 billion in aid to Ukraine

(AP) — The Group of Seven leading economies agreed Friday to provide \$19.8 billion in economic aid to Ukraine to help keep tight finances from hindering its ability to defend itself from Russia’s invasion.

German Finance Minister Christian Lindner told reporters that \$9.5 billion of the total amount was mobilized at meetings of the G-7 finance ministers in Koenigswinter, Germany, this week.

“We agreed that Ukraine’s financial situation must have no influence on Ukraine’s ability to defend itself successfully,” he said. “We need to do our utmost to end this war.”

The money is intended to help the Ukrainian government keep basic services for its people functioning, and is separate from efforts to provide the country with weapons and humanitarian aid.

The needs are vast.

Kristalina Georgieva, the International Monetary Fund’s managing director, last month said Ukraine’s financial ministry had estimated the country will need \$5 billion in international assistance per month to help cover essential government services and keep the country’s economy going.

Russia’s invasion touched on almost every topic of the finance ministers’ meetings this week, from the need to reduce reliance on Russian energy to reforming relationships between countries to maintain economic stability.

“Russia’s war of aggression is causing global economic disruptions, impacting the security of global energy supply, food pro-

duction and exports of food and agricultural commodities, as well as the functioning of global supply chains in general,” the G-7’s communique stated.

U.S. Treasury Secretary Janet Yellen and other leaders spoke this week about the need for allies to put together enough additional aid to help Ukraine “get through” the Russian invasion.

“All of us pledged to do what’s necessary to fill the gap,” Yellen said Thursday. “We’re going to put together the resources that they need.”

The International Monetary Fund’s latest world economic outlook says Ukraine’s economy is projected to shrink by 35% this year and next.

The finance ministers of the G-7 — which includes Canada, France, Germany, Italy, Japan, the United Kingdom and the U.S. — also have grappled with deepening inflation, food security concerns and other economic issues during their talks.

A communique marking the end of their meetings addressed commitments to addressing debt distress in low-income countries, trying to ease the fallout from the coronavirus pandemic and staving off inflation rates “that have reached levels not seen for decades.”

As the finance ministers were meeting in Germany, the U.S. overwhelmingly approved its own \$40 billion infusion of military and economic aid for Ukraine and its allies. A portion of that U.S. funding is included in the G-7 package for Ukraine.

The United Kingdom committed \$50 million toward Ukraine from the London-based Euro-

pean Bank of Reconstruction and Development, Treasury chief Rishi Sunak said.

“This comes on top of the \$950m in loan guarantees that the UK has already committed to significantly scale up World Bank lending to the Government of Ukraine to help meet urgent fiscal need,” according to a news release from Sunak’s office.

This week was a rally for funds to Ukraine and those affected by the war.

Treasury and several global development banks announced Wednesday that they would spend tens of billions to work “swiftly to bring to bear their financing, policy engagement, technical assistance” to prevent starvation prompted by the war, rising food costs and climate damage to crops.

That money will be spent on supporting farmers, addressing the fertilizer supply crisis, and developing land for food production, among other issues.

Other issues of concern for G-7 finance leaders touched on the need for countries to increase scrutiny and regulation of cryptocurrency and other digital assets and streamlining pandemic responses.

‘I can’t see the light’: War fuels surging prices in Europe

(AP) — Edoardo Ronzoni inspects a construction site near Milan that he shut down in March as costs for materials skyrocketed. He can’t complete a half-built roundabout at an intersection known for fender-benders because asphalt, cast-iron pipes and concrete are too expensive — prices exacerbated by Russia’s war in Ukraine.

Public works projects in Italy are grinding to a halt just as the European Union is injecting 108 billion euros (\$114 billion) in pandemic recovery money meant to launch a construction frenzy.

Ronzoni laments that his company has already lost its three busiest months and expects the worst is ahead: “We fear we won’t be able to work this year. We are closing all of our sites.”

The war has accelerated in-

flation across Europe and the world, with prices for energy, materials and food surging at rates not seen for decades. It’s causing sticker shock at the grocery store, gas pumps, electricity bills and construction sites.

Soaring oil and gas prices are the key driver of inflation in Europe, which is heavily reliant on Russian energy to generate electricity and power industry. Inflation is expected to hit nearly 7% this year in the 27-nation EU and is contributing to slowing growth forecasts.

Fishmongers and farmers are being forced to charge prices for their catch and crops that even they see as astronomical. High fuel prices threaten to

paralyze ground transport of goods. Bread prices are soaring from Poland to Belgium. Protests over price hikes have erupted in places like Bulgaria. While governments have responded with tax cuts and other aid, they face limits in easing the impact of volatile energy markets.

Even the thrifty, with backyard hens, are wondering if the price of feed is worth the eggs they yield. Alina Czernik, a shop assistant in Warsaw, does the math, as she sees prices of grain for her hen go up 150%, to 200 zlotys (\$45) per 100 kilograms (220 pounds).

It is spreading a sense of futility, especially for those with low incomes.

Economists are calling it a perfect storm, striking as countries unleashed spending to spur an economic rebound from the COVID-19 pandemic. Surging customer demand overwhelmed factories, ports and freight yards, with resulting shortages driving up prices.

Add to that: The war in Ukraine has blocked exports of raw materials like steel and minerals that kept western Europe humming, as well as commodities like grains and seed oil, accentuating global shortages.

Inflation is running especially hot in central and Eastern European countries nearest the battlefields of Ukraine.

Prices in April rose 14.2% in the Czech Republic, 12.3% in Poland and 10.8% in Greece. They’re an eye-popping 61% in Turkey, which saw its currency lose 44% of its value against the dollar last year.

Shop workers from Warsaw to Istanbul say customers are cutting back, buying lower-priced items, giving up on niceties like fresh-cut flowers and items they can delay, like new clothes.

In the Turkish capital, butcher Bayram Koza said he has seen a 20% drop in sales after prices nearly doubled, largely due to the cost of feed. That is making livestock breeding unprofitable, and many farmers are selling and moving to the city, he said.

On the Greek island of Rhodes, fish restaurant owner Paris Parasos gets up at dawn to go out on fishing trips to keep costs down. But he has still had to raise prices at his restaurant in the island’s main town as cooking oil prices quadrupled. Plus, cooking gas and electricity bills are three times higher.

In Poland, bread prices are up 30%, sending shoppers to discount outlets. Bakers in Belgium are laying off workers, as prices for a loaf rise by 30 cents, to 2.70 euros (\$2.85).

In Spain, truckers have got-

ten some relief on diesel prices thanks to government emergency measures, including a small rebate and permission to pass along higher fuel costs to customers.

Still, the burden is high. Óscar Baños, who drives his own cargo trailer out of the central Spanish town of Palencia, said tires have risen from 400 to 500 euros, a new truck cab is up from 100,000 to 120,000 euros, and a liter of diesel has risen from 1.20 to 1.90 euros in the past year. That’s the equivalent of a gallon of gasoline rising from \$4.80 to \$7.60.

Europe’s auto market also is facing price hikes as factory shutdowns in Ukraine, sanctions on Russia and an existing global semiconductor shortage crimp supplies of components needed to make cars.

As a result, average new car prices in Europe are expected to rise \$500 to \$2,000 this year, according to Nishant Mishra, associate director of investment research at Acuity Knowledge Partners.

Back in Milan, the roundabout is just one of half a dozen non-EU-funded sites Ronzoni has had to close in recent months. He finds himself unable to deliver the work at the contracted prices.

Trump pays \$110K fine, must submit paperwork to end contempt

By MICHAEL R. SISAK
Associated Press
NEW YORK (AP) — **Former President Donald Trump has paid the \$110,000 in fines he racked up after being held in contempt of court for being slow to respond to a civil subpoena issued by New York's attorney general.**

Trump paid the fine Thursday but must still submit additional paperwork in order to have the contempt order lifted, the office of Attorney General Letitia James said Friday.

A message seeking comment was left Friday with Trump's lawyer.

A Manhattan judge declared Trump in contempt of court on April 25 and fined him \$10,000 per day for not complying with a subpoena in James' long-running investigation into his business practices.

Judge Arthur Engoron agreed May 11 to lift the contempt order if, by Friday, Trump paid the fines and submitted affidavits detailing efforts to search for the subpoenaed records and explaining his and his company's document retention policies.

Engoron also required a company hired by Trump to aid in the search, Haystack-ID, finish going through 17 boxes kept in off-site storage, and for that company to report its findings and turn over any relevant documents. That process was completed Thursday, James' office said. Engoron told Trump to pay the money directly to James' office and for the attorney general to hold the money in an escrow account while Trump's legal team appeals the judge's original contempt finding.

Engoron stopped the fine from accruing May 6, when Trump's lawyers submit-

ted 66 pages of court documents detailing the efforts by him and his lawyers to locate the subpoenaed records. He warned that he could reinstate it, retroactive to May 7, if his conditions weren't met. James, a Democrat, has said her three-year investigation uncovered evidence that Trump's company, the Trump Organization, misstated the value of assets like skyscrapers and golf courses

on financial statements for over a decade.

Trump, a Republican, denies the allegations. He has called James' investigation "racist" and a politically motivated "witch hunt." James is Black. Trump's lawyers have accused her of selective prosecution. Trump is also suing James in federal court, seeking to shut down her probe. Last week, a lawyer for James' office said Friday that

evidence found in the probe could support legal action against the former president, his company, or both.

The lawyer, Andrew Amer, said at a hearing in Trump's lawsuit against James that "there's clearly been a substantial amount of evidence amassed that could support the filing of an enforcement proceeding," although a final determination on filing such an action has not been m

Migrants cross border amid legal uncertainty on asylum rule

By ELLIOT SPAGAT
Associated Press
EAGLE PASS, Texas (AP) — **As U.S. officials anxiously waited, many of the migrants crossing the border from Mexico on Friday were oblivious to a pending momentous court ruling on whether to maintain pandemic-related powers that deny a chance to seek asylum on grounds of preventing the spread of COVID-19.**

The Justice Department, hoping to avoid last-minute scrambling over the weekend, asked U.S. District Judge Robert Summerhays to decide by Friday whether to keep Title 42 in place while litigation proceeds. The judge in Lafayette, Louisiana, has said he would decide by Monday, when the public health powers are scheduled to expire.

Migrants crossing in Eagle Pass, Texas, knew little or nothing about the rule under which migrants have been expelled more than 1.9 million times since March 2020. They were largely from Cuba, Colombia, Nicaragua and Venezuela — nationalities that have mostly been spared from the asylum ban because high costs, strained diplomatic relations or other considerations make it diffi-

cult for the U.S. to fly them home.

Ana Pinales of the Dominican Republic, who reached Eagle Pass after three years of living illegally in Chile, where she was unable to find steady work, waded across the river before dawn and walked down a dirt road with about 35 Nicaraguans and 25 Cubans, searching for U.S. Border Patrol agents to claim asylum. She walked longer than the rest and met about 15 other migrants waiting under one of Eagle Pass' two bridges to the Mexican bor-

der city of Piedras Negras. After several hours, an agent arrived for them, relieving armed Texas National Guard members who had watched over the group as golfers played on an adjoining riverfront course.

"Everyone in the world knows about this route," Pinales, 28, said with a smile, relieved that she was nearly at the end of a two-month journey that took her through Panama's notorious Darien Gap and Mexico, where she was robbed of \$3,000 while biding her time in a park in

the southern city of Tapachula. She said she also frequently paid bribes to get past Mexican military checkpoints.

Title 42 has largely affected people from Mexico, Guatemala, Honduras and El Salvador, many of whom have been waiting in Mexican border towns after being denied the right to seek asylum by the U.S. government. Mexico has agreed to accept migrants from those three Central American countries turned back by the U.S. and

last month also started taking in limited numbers of Cubans and Nicaraguans who have been turned away by U.S. authorities.

Nolberto Avila, a small coffee grower who fled threats of violence in Colombia and left his mother and a sibling there to manage the harvests, had never heard of Title 42 in the social media channels that migrants consult to determine whom they can trust and whom and what to avoid. Online chatter directed him to Eagle Pass after he flew to Cancun and took buses to the U.S. border.

"It feels good to be here," said Avila, 30, who spent \$3,000 on airfare and other travel expenses, such as bribes to Mexican soldiers. His ultimate destination is Los Angeles.

A group of about 150 mostly Cuban migrants assembled on Friday a short distance south of the bridge, having swum and walked across the river in smaller groups over several hours since a few hours before dawn. Border Patrol agents lined them up single file and directed them into vans to go to a processing area. About two-thirds were men, nearly all the rest were women and some were young children.

Dutch leader faces pressure over old-school text messages

By MOLLY QUELL
Associated Press
THE HAGUE, Netherlands (AP) — The long-serving Dutch prime minister is in hot water over his low-tech cell phone.

Mark Rutte is facing unusual political and public pressure after revelations that he has been deleting text messages about official matters for years. Critics accuse him of concealing state activity — but he says the messages just took up too much space in his years-old Nokia phone. Rutte survived a no-confidence vote in parliament on Thursday over the deleted text messages, but opposition parties are calling for further inquiry. Questions have also surfaced over whether his use of the old phone might have jeopardized national security. In investigating the government's handling of the COVID-19 pandemic, Dutch newspaper *De Volkskrant* discovered that Rutte had been regularly deleting texts from his Nokia 301 for years. The daily newspaper noticed messages were missing from an official records request and, following a lawsuit,

Rutte revealed that he immediately deleted messages he deemed unimportant, forwarding the remainder for an official archive. Messages that were missing include one from Amsterdam Mayor Femke Halsema regarding a Black Lives Matter protest in June 2020 where attendance was ten times higher than expected, and a message from Unilever CEO Paul Polman regarding a controversial tax issue. Rutte, now in his fourth term and among the EU's longest-serving leaders, has been using his Nokia 301 for years for communication, though he also has an iPhone, which

he says he only uses to read the news. The prime minister denies any wrongdoing. "I have kept to the letter, but also the spirit of the law from A to Z," he said during the heated parliamentary debate. He has long been criticized for his secrecy, holding that discussions between government officials shouldn't be publicly available. Rutte tries to limit official business to phone calls or face-to-face meetings where no notes are taken. Written communication, including text messages, can be disclosed to journalists under the Open Government Act, while phone calls are not

required to be recorded. A government lawyer initially claimed Rutte needed to delete the messages because of a shortage of storage space on the phone, but Rutte later said it was because the phone was slow if too many messages were kept in the inbox. It is possible to archive text messages on the Nokia 301, however, which would reduce the need to reload them, according to Arnoud Wokke, a journalist with Dutch technology website *Tweakers*. Noting multiple occasions when Rutte has said he couldn't remember details about controversial incidents, Labor Party leader Attje Kuiken said: "It appears that the prime minister's phone memory is used just as selectively as the prime minister's own memory." Rutte claimed he had no memory of an important memo during a child care allowance scandal in which thousands of parents were wrongly accused of fraud and for which his entire cabinet was forced to resign. In another case, he said in an interview that he couldn't recall being informed about the Dutch bombing of Hawija,

which killed dozens of Iraqi civilians in 2015. The phone revelations have also led to questions about security. Rutte's use of the Nokia went against the Dutch government guidelines of the prime minister's own IT organization, which recommends that users update their devices monthly to minimize cyber threats, says Benjamin W. Broersma, a security expert. Nokia hasn't updated its 301 software for years. Opposition parties are demanding more information from Rutte, who hastily left Thursday's debate to meet with German Chancellor Olaf Scholz, after refusing to answer questions about how many text messages he deleted.

The prime minister now has a new phone, however. The government information service says he switched not because of the scandal but because his previous phone stopped working during a recent trip to the United States. During Thursday's five-hour debate, Rutte called his new smartphone "clunky" and "ugly."

Tornado hits western German city; dozens injured

BERLIN (AP) — A tornado swept through the western German city of Paderborn on Friday, injuring dozens of people as it blew away roofs, toppled trees and sent debris flying for miles, authorities said.

Meteorologists had warned that heavy rainfall and hail were expected in western and central Germany on Friday, with storms producing wind gusts up to 130 kph (81 mph). Storms on Thursday had already disrupted traffic, uprooted trees that toppled onto rail tracks and roads, and flooded hundreds of basements in western Germany. Paderborn police said 43 people were injured in the storm that hit the city. Thirty were being treated in hospitals and 10 of those were seriously injured.

One woman was in a life-threatening condition, police said. They urged people to remain in their houses so as not to hamper rescue efforts or endanger themselves.

Heavy storm damage was also reported in the nearby town of Lippstadt. A church steeple in the town was toppled and the German news agency dpa reported that more than 100 people were temporarily

trapped in a local open air pool after fallen trees blocked the exit. The regional fire service said all available rescuers were being deployed to the area. Authorities in Bavaria said 14

people were injured Friday when the wooden hut they were trying to shelter in collapsed during a storm at Lake Brombach, south of Nuremberg. Among the injured were several children and a

37-year-old woman, who was airlifted to a hospital with serious injuries. Police said two French citizens died after their motorized paraglider was caught by a strong gust of wind shortly after taking off Thursday from an airfield in Ballenstedt, 175 kilometers (109 miles) southwest of Berlin. Police in Saxony-Anhalt state said the pair, both 59, were urged to land because of a forecast for an abrupt change in the weather. Shortly after the warning, "they appear to have been hit by a gust of wind that caused the paraglider to collapse, and the air vehicle crashed onto a field from a height of about 40 meters (131 feet)," police said. Schools in the western city of Cologne closed before midday Friday to give students time to make it home safely before the storms hit. Further south in Ahrweiler county, all schools remained closed Friday. More than 130 people were killed in the region last summer after it was hit by a flash flood in July.

Russia to cut Finland's natural gas in latest energy clash

By JAN M. OLSEN

Associated Press

COPENHAGEN, Denmark (AP) — Russia will cut off natural gas to Finland after the Nordic country that applied for NATO membership this week refused President Vladimir Putin's demand to pay in rubles, the Finnish state-owned energy company said Friday, the latest escalation over European energy amid the war in Ukraine.

Finland is the latest country to lose the energy supply, which is used to generate electricity and power industry, after rejecting Russia's decree. Poland and Bulgaria were cut off late last month but, along with Finland, were relatively minor customers who had prepared to move away from Russian natural gas.

Putin has declared that "unfriendly foreign buyers" open two accounts in state-owned Gazprombank, one to pay in euros and dollars as specified in contracts and another in rubles. Italian energy company Eni said this week that it was "starting procedures" to open a euro and a ruble account.

The European Commission, the European Union's executive arm, has said the system does not violate EU sanctions if countries make a payment

in the currency listed in their contracts and then formally signal that the payment process is concluded. But it says opening a second account in rubles would breach sanctions.

That has left countries scrambling to decide what to do next. Analysts say the EU stance is ambiguous enough to allow the Kremlin to keep trying to undermine unity among the 27 member countries — but losing major European customers like Italy and Germany would cost Russia heavily. It comes as Europe tries to reduce its dependency on Russian oil and gas to avoid pouring hundreds of millions into Putin's war chest each day but build enough reserves before winter from scarce worldwide supplies.

Finland refused the new payment system, with energy company Gasum saying its supply from Russia would be halted Saturday.

CEO Mika Wiljanen called the cutoff "highly regrettable."

But "provided that there will be no disruptions in the gas transmission network, we will be able to supply all our customers with gas in the coming months," Wiljanen said.

Natural gas accounted for just 6% of Finland's total energy consumption in 2020,

Finnish broadcaster YLE said. Almost all of that gas came from Russia. That pales in comparison to big importers like Italy and Germany, which get 40% and 35% of their gas from Russia, respectively.

According to Finland's Gasum, Russian state-owned energy giant Gazprom said in April that future payments in its supply contract must be made in rubles instead of euros.

The cutoff was announced the same week that Finland, along with Sweden, applied to join the NATO military organization, marking one of the biggest geopolitical ramifications of the war that could rewrite Europe's security map.

The gas cutoff "has more to

do with the sanctions and the fact that they want to be paid in rubles" than Finland's application to NATO, said Charly Salenius-Pasternak, an analyst with the Finnish Institute of International Affairs in Helsinki.

"Russia uses its energy as a weapon as part of its geopolitical thinking," he said. "It will have little impact on Finland, which has been diversifying its energy (sources) in recent years."

The government in Helsinki said Friday that it had signed a 10-year lease for a floating liquefied natural gas terminal in the Gulf of Finland and that necessary port structures will be built along the coasts of the Nordic country and Estonia, Economy Minister Mika Lintila said in a statement.

It "will play a major role in securing gas supplies for Finland's industry," Lintila said. The vessel should be ready to operate by next winter.

Finland and Estonia have been cooperating on renting the LNG terminal ship, which will provide enough storage and supply capacity to allow Russian gas to be abandoned in the neighboring countries, said Gasgrid Finland, the transmission network company. A gas pipeline between the neighbors will make it possible to import gas from the Baltic states instead of Russia.

Meanwhile, Italian company Eni said Tuesday that it was moving to follow Putin's decree "in view of the imminent payment due in the coming days" but did not agree with the changes.

U.N.: 18 million facing severe hunger in West Africa's Sahel

GENEVA (AP) — The U.N. is warning that 18 million people in Africa's Sahel region face severe hunger in the next three months, citing the impacts of Russia's war in Ukraine, the coronavirus pandemic, climate-induced shocks and rising costs.

The hunger crisis may press increased numbers of people to migrate out of the affected areas, said a U.N. official.

The largest number of people are at risk of severe hunger across the region since 2014, and four countries — Burkina Faso, Chad, Mali and Niger — are facing "alarming levels," with nearly 1.7 million people facing emergency levels of food insecurity there, the Office for the Coordination of Humanitarian Affairs said Friday.

Parts of the Sahel region,

a vast territory stretching across the south of the Sahara Desert, have faced their worst agricultural production in more than a decade, and food shortages could worsen as the lean season arrives in late summer, Tomson Phiri,

spokesman for the U.N.'s Nobel Peace Prize-winning World Food Program, said.

"The situation is definitely going to get worse before it gets better," he told reporters in Geneva. "We may see more people trying to make

ends meet by migrating: It's a very, very likely possibility." Many people from the region are among migrants who seek to travel north to Europe in hopes of economic opportunity, more stability and safety. "A combination of violence,

insecurity, deep poverty and record-high food prices is exacerbating malnutrition and driving millions to the fringes of survival," Martin Griffiths, the head of OCHA, said in a statement.

"The recent spike in food prices driven by the conflict between Russia and Ukraine is threatening to turn a food security crisis into a humanitarian disaster," he said. Those two countries are key producers of wheat, barley and other agricultural products, and the conflict has almost entirely halted exports through the Black Sea.

Griffiths' office is releasing \$30 million from its emergency relief fund for the four African countries.

Humanitarian groups earlier this year launched appeals seeking \$3.8 billion in aid for the region in 2022, but they remain only 12% funded, OCHA said.

Rojas hits 3 home runs, Dbacks outslug Cubs in HR derby 10-6

By MATT CARLSON
Associated Press
CHICAGO (AP) — Josh Rojas launched his first three longballs of the season and the Arizona Diamondbacks powered past the Chicago Cubs 10-6 Friday in a game of home run derby at Wrigley Field.

With a strong wind blowing out on a warm day, the teams combined to clear the walls 11 times — the Diamondbacks connected seven times. David Peralta went deep twice and Alek Thomas and Christian Walker added solo shots as the Diamondbacks won their second straight after a six-game slide. Rojas posted his first three-homer game and third career multi-homer effort. After a flyout in the first inning, he hit a solo homer in the third, a two-run drive in the fifth and another solo home run in the seventh. Rojas led off the ninth with a chance to tie the big league record of four home runs in a game, but struck out look-

ing. There have been 18 four-homer games performances in the majors, the last by J.D. Martinez for the Diamondbacks in 2017. The versatile Rojas, who started at third base, entered batting .250 with three RBIs in 13 games after being reinstated from the injured list on May 6. The 27-year-old had been out with a strained right oblique. On a day when the Cubs honored Hall of Fame pitcher Ferguson Jenkins, they lost their third in a row. Jen-

kins, in fact, led the National League in home runs allowed during five of his 10 seasons with Chicago. Jonathan Villar homered and doubled for the Cubs in his 1,000th big league game. Patrick Wisdom hit his seventh homer to end an 0-for-10 slump. Cubs rookie Christopher Morel and Ildemaro Vargas also homered. Humberto Castellanos (3-1) allowed three runs on five hits in 5 1/3 innings for the win.

Rojas and Peralta tagged Kyle Hendricks (2-4) with Arizona's first four homers as the Cubs ace righty yielded a season-high seven runs and eight hits in five innings. Hendricks entered having allowed just one run in his previous 14 1/3 innings. Rojas and Peralta hit solo drives off Hendricks in the third to put Arizona ahead 4-2. The pair went deep again, one out apart in the fifth, to make it 7-3. Peralta recorded his fourth multi-homer game. Morel and Vargas hit back-to-back homers in the seventh off Caleb Smith to pull Chicago within 9-5. After Rojas struck out in the ninth, Walker followed with his team-leading 10th homer. **HR DERBY** Rojas became the 11th Diamondbacks hitter to hit three homers in a game. It was the 13th time an Arizona batter hit three homers in a game. **"FERGIE" STATUE UNVEILED** The Cubs unveiled a statue of right-hander "Fergie" Jen-

kins outside Wrigley Field before the game. The metal sculpture of Jenkins delivering a pitch joins a row that includes ones of Ernie Banks, Billy Williams and Ron Santo. Jenkins, who spent 10 of 19 seasons with the Cubs, spoke from the dais in a plaza on the west side of the ballpark. The native of Chatham, Ontario, was 167-132 with a 3.20 ERA for Chicago in 401 games -- completing 154 of them -- and was a three-time All-Star and the 1971 NL Cy Young Award winner while with the Cubs.

The 79-year-old Jenkins took note of the gusty wind during the ceremony. "I pitched many days, turning on to Addison (Street) and said, 'Oh, the wind is blowing out.'" **DBACKS ROSTER MOVE** Arizona recalled OF Jake McCarthy from its taxi squad and optioned RHP Jacob Webb to Triple-A Reno, but he remained on the taxi squad. McCarthy had two hits and two RBIs.

Bardet pulls out of Giro d'Italia, Démare claims third win

CUNEO, Italy (AP) — Romain Bardet pulled out of the Giro d'Italia due to a stomach bug on Friday before French cyclist Arnaud Démare claimed his third victory in this year's race.

Bardet, who was among the overall title favorites and lying fourth overall, climbed off his bike about a third of the way into the 13th stage and got into a Team DSM car. Shortly afterward, the team confirmed his abandonment. Bardet suffered from a stomach bug the previous day and was seen holding his stomach in pain at the beginning of Friday's stage in San Remo. He was only 14 seconds behind leader Juan Pedro López overall, and was expected to be the main challenger to favorite Richard Carapaz. Bardet had been in great form, finishing first in the Tour of the Alps last month and almost winning atop the Blockhaus on the Giro ninth stage on Sunday. "He slept the whole way back in the bus after the race. He didn't eat last night, he couldn't eat anything. He was awake all night being sick," Team DSM coach Matt

Winston said. "This morning there was a small chance he could finish today but Romain's a fighter. He wanted to start the stage, he wanted to go for it. But he was already being sick in the neutral and it just wasn't possible to continue." The 150-kilometer (93-mile) stage to Cuneo was expected to be a final one for the sprinters but for a long time it appeared as if it was going to be won from a breakaway. However, the sprinters' teams worked hard to drive the peloton and the four escapees were swallowed up with just 700 meters to go. That set up the final sprint, and Démare managed to head off Phil Bauhaus and Mark Cavendish. "When I got here I was saying it would be nice to win one ... I'm really happy," said Démare, who rides for Groupama-FDJ. "It was an incredible day. They really resisted at the front. "We were really riding hard and with 10 kilometers to go I started to think about the sprint because we knew we'd get them by then and the guys did a great job. It was monstrous actually the lead-out ... and I did a big strong

sprint." The breakaway got away early in the stage and the four escapees built a lead of more than six minutes at the summit of the Colle di Nava, the only classified climb of the day — a steep, third-category ascent in the first half of the route.

It appeared as if the peloton let the breakaway gain too much time on the climb as

the quartet worked well together to keep the pack distanced, but it was to end in heartbreak for the four riders, each of whom was looking for a first grand tour stage win. López maintained his 12-second lead over Carapaz and João Almeida, and will wear the pink jersey for a 10th day on Saturday's 14th stage. It is the shortest one of the race at just 147 kilometers (91 miles) but includes

two ascents of the Maddalena and the Superga hill in a challenging two-lap circuit in the second half of the undulating route from Santena to Torino.

"I need to enjoy, like, every day," López said. "For sure, some guys will try to make a difference but I will try to do my 100%." The Giro finishes in nine days in Verona.

Interstatedaydream wins Black-Eyed Susan Stakes at Pimlico

By STEVE GINSBURG
Associated Press
BALTIMORE (AP) — Interstatedaydream's owner and trainer decided to skip the Kentucky Oaks two weeks ago. That paid dividends at the Black-Eyed Susan Stakes at Pimlico Race Course on Friday.

With jockey Florent Geroux aboard, the well-rested filly was able to hold off race favorite Adare Manor down the stretch and win the \$250,000 Grade 2 race by 1 ¼ lengths. In her previous start, Interstatedaydream tired late and finished third in a Grade 1 stakes race last month at the Ashland Stakes at Keeneland in Kentucky. Geroux, who won his first Black-Eyed Susan in his fourth attempt, said he didn't ride her much differently this time but noticed she was calm throughout. "She was very brave down the lane," Geroux said. "Very pleased with the filly how she ran today. I think the connections did right skipping the Oaks and other big races on (Kentucky) Derby weekend and train for this one. She

was primed and ready." Interstatedaydream, who went off at 6-1, paid \$14.20, \$6.40 and \$5.00. Adare Manor, ridden by John Velazquez, returned \$4.40 and \$3.20, while show horse Radio Days returned \$7.60. Despite Adare Manor starting from the difficult 10 post in the 13-filly affair, many in

the Pimlico crowd expected the Kentucky-bred bay to mount a challenge down the stretch. But Interstatedaydream was having none of it. Trainer Brad Cox said he was "just very proud" of the Ontario-bred filly. "She stepped up and ran a huge race," he said. "I was

very shocked to see she was the price she was going into the gate. She wasn't getting a lot of respect, and I really thought she fit well with this group. "It was a big effort and I thought Florent did a good job of getting a good early position. Her last two works have been phenomenal and

she showed up and ran a big race." Interstatedaydream broke sharply from the ninth post and sat in second for most of the race before grabbing the lead at the top of the stretch. "We got six weeks in between races here," owner Statton Flurry said. "Once she crossed the finish line at the Ashland, Brad and I looked at each other and said, 'Let's point to the Black-Eyed Susan.' That was our game plan, and here we are." Cox acknowledged Interstatedaydream "just wasn't ready" for the Oaks. "It would have been back a little too quick, throwing too much at her too quick" he said. "I thought this made the most sense."

Earlier on the card, First Captain, with Luis Saez aboard, overtook even-money favorite Vindictive at the wire to win the \$300,000 Grade 3 Pimlico Special by a head. That gave owner Bobby Flay a second victory of Black-Eyed Susan day after Pizza Bianca won the \$100,000 Hilltop.

Record 6 Latin Americans start off well at PGA Championship

By DAVE SKRETTA
AP Sports Writer
TULSA, Okla. (AP) — Joaquin Niemann spent his youth growing up in Chile trying to follow in the footsteps of Mito Pereira, who didn't exactly make it easy the way he kept winning prestigious amateur golf events in the U.S. and Scotland and points in between.

Niemann sure did a nice job following Pereira's path in the opening round of the PGA Championship. Two of a record six Latin American players in the field, Neimann and Pereira each shot rounds of 2-under 70 at Southern Hills, leaving them just three shots back of leader Rory McIlroy heading into Friday's second round. "I remember when I was probably 12, 13, and he was probably a couple years older, and he would win everything in Chile," Niemann recalled. "He would come to the States and play the Junior World, and I think he won that, too. For me and all my friends that we, like, grew up playing together, seeing Mito, it was

like, 'Oh, there's Mito.' He was impressive." Pereira stepped away from the game for a while before coming back to it, and now he's playing better than ever. He made four birdies during his round Thursday, including three in a span of five holes on the back side. "It's nice to see on the first page two Chilean flags," Niemann said, "and a Mexican flag, too." Niemann may not believe it, but Pereira admitted Thursday that he always knew who was chasing him growing up. "Yeah, I think it was mutual. We both kept feeding each other," he said of Niemann. "Obviously he got here first.

I turned pro first, I got to the Latin American, Korn Ferry (tours) first, so it was like we were all trying to feed each other. And then when he got up here and just played amazing golf, you just see how close it is to get here." There is a rich history of Latin American players in professional golf, but few have contended in major championships. And only two, both from Argentina, have won: Roberto De Vicenzo by two shots over Jack Nicklaus in the 1967 British Open at Hoylake, and Angel Cabrera, who won the U.S. Open in 2007 and the Masters two years later. Yet the latest crop could soon

become a force in the game's biggest events. As soon as this weekend, in fact. Abraham Ancer of Mexico, who has made the cut in all four majors and tied for eighth in last year's PGA, also got off to a strong start with 67 on Thursday. That left him in a tie for fourth behind McIlroy, Will Zalatoris and Tom Hoge. "I felt like I played really, really well for maybe like, a 5-under round," Ancer said, "but I'm never going to be asking too much after that. I know this is a tough golf course and it can go the other way quickly." It did for countryman Carlos Ortiz, who opened with 79. But otherwise, all the Latin Americans fared well. Sebastian Munoz of Colombia opened with 74, same as Tiger Woods, and Venezuela's Jhonattan Vegas shot 73, leaving both ahead of PGA Tour player of the year Patrick Cantlay and four-time major winner Brooks Koepka. "We're basically a team," Pereira said of the Latin American contingent. "We come from another part of

the world, so we come here and we just support each other. Try to sometimes share housing. So we have a really good relationship." Ancer has won a World Golf Championship event, Vegas is a three-time winner on tour, and Ortiz and Munoz also have wins to their credit. Niemann might be the hottest of them all, winning the Genesis Invitational at Riviera in February and making the cut at the Masters to go along with his 2019 title at The Greenbrier. "Definitely, golf in Latin America is getting bigger," he said. "I think everybody in South America is on the same page. I think everybody, all the young players seeing us up here playing on TV every week, I think it motivates a lot of the kids. "We didn't have that in Chile back in the day," Niemann said. "We never see a professional from Chile playing in Chile. We obviously have Camilo (Villegas), Jhonny from Latin America, but now I think having players from all over the continent in South America is really good for golf in our region."
